**Retail Businesses Targeted**

The downtown retail area has been subject to a series of burglaries in the recent weeks. At this time, we are actively investigating the cases, but have few leads to go on. The burglars are targeting retail stores, taking petty cash left in the store.

What can you do to protect yourself and others from being victimized?

Call the police with any suspicious activity you may witness occurring after hours in retail areas.

We suggest store owners protect themselves by making certain their surveillance/alarm systems are operating correctly, doors are secure, considering leaving lights on inside of their business and securing/removing all petty cash from their businesses.

Anyone with information related to these burglaries is encouraged to contact Sergeant Joel Welinski at 774-7213.
